

Data Scientist

Organization: Advanta

Company: Siemens Technology and Services Private Limited

Experience Level: Experienced Professional

Job Type: Full-time

Job Location: Gurugram, India

- B.E. / B. Tech / MCA/ M. Tech (Computer Science/Electronics & Communication/Electrical).
- You need to be an engineering graduate with 8-11 years of experience in design and development.
- Proficiency with data mining, mathematics, and statistical analysis with significant hands-on experience in AI / Data Science.
- You should have ability to work as an individual contributor (IC role).
- You must have Customer focus and effective stakeholder management skills.
- Must have good analytical, debugging and tracing skills. Should be well-versed with clean code principles (SOLID, DRY, KISS).

Exposure to secure coding is beneficial.

This role is based in Gurugram. You'll also get to visit other locations in India and beyond, so you'll need to go where this journey takes you. In return, you'll get the chance to work with teams impacting entire cities, countries – and the shape of things to come.
