

The Job Guaranteed Program from Slocum (a wholly owned subsidiary of HCL Corporation) There are some open positions available for this program, and I would be happy to know from you if any of your students (from 2012 and 2013 batches) who are yet to be placed and who would be interested to enroll for this program. Please find below a brief about the program. Interested students, once shortlisted for this program, would have to undergo six months industry relevant training in the Windows/Networking technologies. Post completion of training, they would commence their 3 months on the job training in Noida & Chennai. During the OJT period, the **students would also be paid a stipend of Rs.7, 000/- per month**. After successful completion of OJT, **they would be absorbed by Slocum as Associate Graduate Engineer** and would be working in the HCL-Infrastructure services division. **Their work location would be Noida & Chennai.**

This would be a wonderful opportunity for your students to start their career in the IT Industry.
